Splitting procedure: A sheet of class entries will be run in numerical order. The office will split the class by circling every other entry starting at the top of the page. Those circled will be in the second half of the class; those not circled will be in the first half of the class. Should the class have an uneven number of entries, the first half will be the section with one less entry. In the event a Post entry is accepted in the class, it will be put in the first section.
